

The Mastercard Titanium Debit Card

A perfect companion for your everyday purchases

The Saradar Bank Titanium Debit card offers you the ultimate convenience to access your bank account anytime anywhere.

Purchases and withdrawals you make using your Card are deducted directly from your Saradar Bank account.

Use it worldwide at merchants' locations and over the ATM wherever MasterCard is accepted.

Your Titanium Debit card comes to you with a host of benefits and privileges that suits your lifestyle:

Live Rewards Program

Earn 1 point for every US dollar (or c/v) spent on your card

Visit "Live Rewards" at www.saradarrewards.com and choose the reward that suits you:

- Gifts and items: select your gift from different merchants' categories.
- E-vouchers to be spent at the merchant of your choice.

Missing some points?

You can buy extra points using your Saradar Bank card or any other bank card.

SmartPay Services

- **Contactless Payment**

With contactless, make fast and secure payments for small purchases without your PIN.

You can use the contactless feature at any merchant displaying the MasterCard Paypass logo anywhere in Lebanon and abroad. All you need to do is:

- Look for MasterCard Paypass logo on the POS machine
- Tap your card against the contactless POS machine
- For amounts higher than a certain limit set on the machine, you will have to insert your PIN

- **Chip and PIN**

Your card is embedded with a chip. This technology adds a layer of verification to the transaction process, making your information more secure. You will be asked to insert your PIN with each POS and ATM transaction.

The process of buying goods and services with your card is simple and secure:

- Insert your card into the card reader.
- Enter your PIN (make sure you insert the PIN provided to you by the bank - same one you will use on ATM).

- **3D Secure**

3D Secure adds an additional security layer for online card transactions by authenticating the cardholder during a payment transaction in order to reduce payment fraud.

More than 350,000 online merchants are already enrolled in this service and in order to complete the payment transaction, they will ask the cardholder to insert his 3D Secure password.

How it works

The 3D Secure password is a dynamic password that changes with every transaction.

If the cardholder is making an online purchase at a 3D Secure participating merchant, he will be asked to enter his One Time Password (OTP). The Bank will automatically send the cardholder the OTP to his mobile phone in order for cardholder to proceed with his payment. Every OTP is valid for one transaction and for 30 minutes from the time it is generated.

Regional Airport Lounge Access

Enjoy unlimited free airport lounge access at international airports in the region* by presenting your Saradar Bank card and boarding pass.

Lounges include:

- **Egypt:** Cairo International Airport, First Class Lounge - Terminal 1,2 and 3
